

## Care Planning

### Course aims

To be updated on developments on Independent Reviewing Guidelines and improve practice in the reviewing process for LAC.

### Course objectives

At the end of this course delegates will:-

- Have updated their knowledge of the independent reviewing officer regulations and practice guidance
- To identify ways to promote participation in review and care planning processes and to identify some of the barriers from the perspectives of those involved, examining ways forward.
- How does the department ensure that the voice of the child is central to any plan?
- Processes – Examine how the IRO provides feedback to the department regarding the child's understanding of his or her plan and their involvement in the process.
